PROFESSIONAL SUMMARY

Computer Science graduate from KFUPM with hands-on experience in IT project support, reporting, and web development. Built academic projects using Django, SQL, Python, and real-time dashboards, with practical exposure to Tableau, Excel, and cross-functional IT operations. Currently pursuing a Master's in Data Science & Analytics and seeking an entry-level role in software, data, or technology-related fields.

SKILLS

Programming & Development

Python, Django, Java, HTML, CSS, JS, SQL, XAMPP, Github, Object-Oriented Programming, Data Structures & Algorithms

Software & Tools

Microsoft Office, Excel Pivot Tables, n8n, Lucidchart, Tableau, OpenProject, Blender, Photoshop, Unity, Figma, Canva

Data Analysis

Data Handling, Data Interpretation, Basic Statistical Concepts, Dashboard Reporting, Data Visualization

Soft Skills

Problem Solving, Attention to Detail, Team Collaboration, Communication, Fast Learning, Accountability

Languages

French (Native), English (Fluent), Arabic (Native)

EDUCATION

Master's in Data Science & Analytics | KFUPM | 2025–Present

Bachelor's in Computer Science | KFUPM | 2020–2025

Secondary School Certificate | King Fahd Secondary School | 2016–2019

PROJECTS

Live Sensor Dashboard for Box Sorting System (Django)

- Contributed to the design of a sensor-based package-sorting prototype with database storage and a real-time web dashboard.
- Developed a user-facing dashboard to display live sensor data, package information, sorting status, and system metrics without page refresh.

AI Job Application Tracker (n8n)

- Built an AI form workflow that analyzes job posts, scores matches, drafts messages, and saves applications to Sheets.

Student Performance Prediction (Machine Learning)

- Built a machine learning model predicting student pass/fail outcomes using academic data and classification metrics.

3D Annual Report Design Support (Blender)

- Supported a design company in preparing multiple 3D visual design proposals for another company's annual report presentation.

CERTIFICATIONS & BADGES

Data, Analytics & Business Tools Certificates | Coursera: Excel Data Handling, Google Analytics, WordPress Website Building & Business Process Analysis

Deep Learning & Computer Vision Certificates | Coursera: TensorFlow Emotion Recognition, TensorFlow Object Localization, PyTorch Object Localization & CNN Filter Visualization

Azure AI & Machine Learning Certificates | Coursera: Azure Cognitive Services Computer Vision App & Azure ML Studio Pipelines

Unity Badges | Unity Creative Core & Unity Essentials & Unity Junior Programmer

PROFESSIONAL EXPERIENCE

Projects coordinator / Documents controller

KFUPM IT PMO | 2024 – 2025

Internship + Part-Time

- Maintained project records and workflow updates using OpenProject and structured tracking tools.
- Tracked project progress across departments and supported status follow-ups on key deliverables.
- Produced dashboards, reports, and presentations using Excel, Tableau, and PowerPoint.
- Assisted with workshops, meetings, and internal operational coordination within the IT PMO.
- Developed practical exposure to IT operations, reporting processes, and team-based project support
